

Quality Policy Statement

The NEOEMKI National Medical Device Conformity Assessment and Certification Limited Liability Company, as the legal successor of the OGYÉI EMKI Device Qualification and Hospital Technology Directorate, is an organization with high-level professional knowledge and significant experience in certifying the conformity assessment of medical devices and the quality management systems of organizations operating at any stage of the life cycle of medical devices.

Our primary objective is to meet our customers' needs with high quality, in accordance with contracts, regulations, the requirements of the EN ISO 17021 standard family and Regulation (EU) 2017/745 of the European Parliament and of the Council.

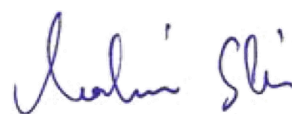

Our work in the medical technology fields listed in our quality management system is carried out well-prepared and with a commitment to quality.

NEOEMKI LLC. is independent of manufacturers, distributors and customers, has impartial, professionally trained staff and modern equipment.

No external persons or organizations influence the objectivity of the results of the investigations. We reject external initiatives to conduct studies using methods of questionable validity that cast doubt on the results.

In the interest of our professional and organizational development, we are continuously developing our internal resources, processes, management and controlling systems.
